

Polici Termonieth

Terminology Policy

Panel Termonieth

1. The Panel

The Terminology panel shall sit alongside the Research, Dictionary and Signage panels of Akademi Kernewek.

2. Function

The panel shall research and recommend neologisms to the Akademi and the Dictionary Panel. Priority is to be given to requests from the Translation group and Cornwall Council.

3. Personnel

The Panel shall comprise a Chair(man), Deputy Chair(man) and Secretary, together with a working group which meets regularly and consultants who correspond by email. It shall have the power to invite advice and information from experts from without the panel, including but not limited to the Research panel when researching specific topics.

4. Methodology

The work of the panel shall be based on the framework devised by Snell and Morris for the formation of neologisms (see appendix 1).

Where a root word exists within the current Cornish corpus, that shall form the basis of neologisms.

Where there is no root word within the Cornish corpus, then cognates shall be sought within the corpus of Welsh and Breton to form the basis of a neologism.

In other cases, the etymology of the English word shall be investigated, to determine a suitable basis for the neologism.

5. Reporting

The panel will supply reports of its meetings to the Akademi prior to each meeting of that body. It will also produce an annual report for the Akademi.

The report will include a summary of the recommendations made at each meeting, and will form the method of transmission to the Dictionary panel.

The panel will produce a work plan, to be updated regularly, to demonstrate the progress made and future work.

Appendix 1

Snell & Morris¹ [revised]² - Neologism Template

Word Required:

Etymology:

	EXPLANATION	FORM	KERNEWEK (FSS)
1a	Cornish - Existing Word i.e. Word found in existing Cornish Dictionary.
