Introduction

The Akademi Kernewek (AK) continues to develop and improve on entries listed in the online Cornish Dictionary. It is a dictionary of the Cornish language as used today in the 21st Century. The Dictionary uses the Standard Written Form (SWF) for Cornish which has been agreed to provide public bodies and the educational system with a universally acceptable, inclusive, and neutral orthography.

This PDF collates the specialist term lists reviewed, researched, and recommended by the AK Terminology Panel, for addition to the dictionary database.

Disclaimer

Not all terms found in this document are new to the SWF dictionary. Some may be an extension of an existing meaning, or noting its usage for a specific subject. This PDF version only contains the initial recommendations, its contents may be subject to change. The most up to date version of the dictionary is the online dictionary, available at:

<https://cornishdictionary.org.uk>

Feedback, corrections and the addition of new items are the responsibility of the Akademi Kernewek and should be sent to the Cornish Language Office (cornishlanguage@cornwall.gov.uk) to be referred on to the Akademi.
